COVER

The Army Missile Command has developed an intheater missile readiness activity (ITMRA) to quickly project depot-level support into theaters. In the cover photo, technicians set up antennas for the satellite communications systems housed in ITMRA's command and control van. The story of ITMRA begins on page 13.

This medium is approved for the official dissemination of material designed to keep individuals within the Army knowledgeable of current and emerging developments within their areas of expertise for the purpose of enhancing their professional development.

By Order of the Secretary of the Army:
