

## What is the M1F PDSI?

The M1F Personnel Development Skill Identifier is primarily for Talent Management and is used to identify Senior NCOs with broad knowledge, skills, education, and experience who are qualified to fulfill multiple functions or roles within the logistics functional areas. This ensures Commanders have visibility on those with the expertise and are assigned where they can make the most significant impact, maximizing the organization's talents and capabilities.

### Requirements

- ❑ **SFC or Above** – Brings the necessary depth of experience, leadership, and expertise to better advise commanders.
- ❑ **Quartermaster, Transportation, Ordnance CMFs & 51Cs**
- ❑ **SLC Graduate**
- ❑ **Leadership Experience** – Essential for guiding and influencing Soldiers effectively during complex operations.
- ❑ **Multifunctional Experience** – Enables adaptability and versatility in fulfilling various roles with the logistic function.
- ❑ **Military Education** – Ensures a solid understanding of strategic, operational, and tactical concepts critical for mission success.
- ❑ **College Education** – Provides broader knowledge and perspectives that enhance problem-solving and innovation.
- ❑ **Certification** – Validates specialized skills and expertise, ensuring readiness and competence for specific duties.
