

# DEFENSE DISTRIBUTION SYSTEM

## A Selected Bibliography

**U.S. ARMY SUSTAINMENT UNIVERSITY LIBRARY**  
**May 2017, Updated 2023**

“One of the U.S. military’s greatest advantages over its adversaries is its ability to move an enormous amount of people and equipment quickly anywhere in the world...’It is the crown jewel in our national strategy and gives us our true global reach ...Together, we are an unrivaled, global team operating an integrated, networked end-to-end defense distribution system, providing logistics superiority when and where needed’ “

Air Force General Duncan J. McNabb, (then) Commander  
U.S. Transportation Command

March 17, 2010

Article by Lisa Daniel  
American Forces Press Service

## PREFACE

The study of the Defense Distribution System is an important area of study for the United States Army, and for the Department of Defense. The purpose of this bibliography is to provide an introduction to some of the resources readily available at the U. S. Army Sustainment University Library or on the Internet about the Defense Distribution System. It is not offered as comprehensive listing of resources, but is intended to serve as a starting point for research.

Most of the resources in this bibliography are dated from 1994 to the present. All items are available through the Army Sustainment University (ASU) Library, either within the physical library collection or on the internet. For convenience we have added ASU Library call numbers, internet addresses, or database links at the end of each entry. Web sites were accessed October 2014, and July 2023.

Due to licensing agreements, access to articles in the ASU Library's subscription databases is limited to authorized registered users of ASU, students, faculty and staff. Remote authentication is offered for ASU Library registered customers; please contact library for more details. For the Army community stationed elsewhere or deployed, contact DoD MWR Digital Libraries, or your local post or command library. Contact your local library about resource sharing options (interlibrary loan).

This bibliography and others compiled by the ASU Library are available online through the Library's ASU Webpage page at <http://www.alu.army.mil/index.html>.

For additional information please contact the 3<sup>rd</sup> Floor Information desk, U. S. Army Sustainment University Library, by sending an email [tousarmy.gregg-adams.tradoc.mbx.army-logistics-library@army.mil](mailto:tousarmy.gregg-adams.tradoc.mbx.army-logistics-library@army.mil) , or by calling 804-765-8170 (commercial) or 539-8170 (DSN).
