

Chief of Staff, Army, Supply Excellence Award (SEA) Program

The Chief of Staff, Army, Supply Excellence Award (SEA) Program was instituted in 1984 to recognize Active Army, Army National Guard, and Army Reserve units for outstanding supply excellence. The program encompasses unit, parent, property book, and supply support activity levels. By incentivizing exceptional supply and support operations, the SEA program fosters accountability, resource management, and strict adherence to logistics protocols. The SEA program is comprised of two categories the MTOE CSDP combined level and the MTOE Supply Support Activity (SSA) level.
